Little Snoring Community Room Fire Safety Risk Assessment

Premises address / location

Little Snoring Community Room, The Playing Field, Stevens Road, Little Snoring, NR21 0GZ

Muster Point

Concrete pad in play area

Management / contact

Little Snoring Parish Council, Little Manor, Thursford Road, Little Snoring, Fakenham, NR21 0JN. Telephone: 01328 822366. Email <u>littlesnoringpc@googlemail.com</u>. Website: <u>https://littlesnoringparishcouncil.norfolkparishes.gov.uk/</u> Key holders:

Joanna Otte (Clerk) – 01328 822366 Little Snoring Pre-School – 01328 822488 (Cuppa in the Community organisers)

Description of premises

- Stand-alone modular building on the playing field with a small metal storage container on the northern end. In an adjacent compound is the pre-school modular building and associated structures (wooden storage shed, large metal storage container and playground apparatus).
- Level access is provided from the gravel car park along a tarmac path next to the pre-school compound towards the recreation area. The path joins a concrete ramp with a hand rail at the southern end of the building, leading up to the entrance.
- The entrance is a wide door (large side opens outwards, smaller door opens inwards) to allow access for mobility scooters, wheelchairs, prams etc. Both sides of the door automatically close, but when open to the fullest extent will remain open.
- Windows: two windows next to the door overlooking the recreation area: six windows along the western length of the building overlooking the playing field: one on the northern end by the kitchen sink. The top section of all but the three middle windows open.
- The building consists of one large room approx.. 28 foot by 18 foot with a separate toilet on the northern corner.
- The building has marine grade board as extra insulation on the lower half of the internal walls.
- The ceiling is a fitted suspended ceiling with lights fitted behind some of the panels.
- There is a wall-mounted foam extinguisher to the right of the entrance / exit door.
- There is a wall-mounted fire blanket in the serving area (on the dividing wall with the toilet).
- At the opposite end from the door is a serving area. Kitchen units with a washing up sink at one end and a hand wash sink at the other extend along the northern wall and along the small internal wall. First aid kit is on the unit near the wash basin. Crockery, cutlery, tea towels and basic refreshments are stored in the units. Cleaning materials are under the sink.
- Electricity and electrical equipment
 - The **fuse box** is situated on the northern wall above the kitchen units
 - Thermostatic electric **hot water heating unit** under the unit by the dividing wall between the serving area and the toilet (plugged into a socket below the fuse box).
 - Urn and Kettle on the kitchen unit
 - Battery operated clock on the wall
 - Three wall-mounted **electric heaters** with guards on the three walls
 - \circ $\;$ Sockets: four double sockets (adjacent to the heaters and below the fuse box).
 - Lighting above the sound-absorbent ceiling panels. Light switch by the entrance
 - \circ Light in the toilet operated by pull switch by the door
 - Emergency lighting in place in the toilet, along the central length of the room and above the exit.
 - External motion sensitive lighting and emergency lighting.

Little Snoring Community Room

Fire Safety Risk Assessment

Identify Fire Hazards

- a) Potential sources of ignition
 - i) Sockets
 - ii) Heaters
 - iii) Urn
 - iv) Kettle
 - v) Naked flames (e.g. candles) and gas appliances (e.g BBQ, gas grill etc) are prohibited.
- b) Potential sources of fuel
 - i) Notices and cork notice board
 - ii) Pictures on the walls
 - iii) Furniture tables, chairs, shelves
 - iv) Tea towels, table cloths
 - v) Paper towels and toilet paper
 - vi) Rubbish in kitchen and toilet bins
 - vii)Books, puzzles, DVDs, leaflets
 - viii) Blinds

ix) Naked flames (e.g. candles) and gas appliances (e.g. BBQ, gas grill etc) are prohibited.

- b) Potential sources of oxygen
 - i) Air

2) Identify People at Risk

- a) People in and around the premises
- b) People hiring the venue and the attendees
- c) People at particular risk disabled people, people with mobility issues, children
- d) People in the toilet

3) Evaluate, Remove, Reduce and Protect from Risk

a) Detection and warning

a) Detection and warning	
Can the existing means of detection ensure a fire is discovered quickly enough for the	YES
alarm to be raised in time for all the occupants to escape to a place of total safety?	
Relies on people present to notice a fire / smoke / smell burning	
Are the detectors of the right type and in the appropriate locations?	N/A
If the fire detection and warning system is electrically powered, does it have a back-up power supply?	
Can the means of warning be clearly heard and understood by everyone throughout the	YES
whole building when initiated from a single point?	
Organiser/s designated to shout 'fire' and order and assist people to leave	
Are there provisions in locations where the shout of alarm cannot be heard?	YES
Ensure that one of the organisers checks the toilet and shouts the alarm	
b) Fire Fighting	-
Are the extinguishers suitable for the purpose?	YES
Foam extinguisher mounted on the wall by the entrance / exit door	
Fire blanket mounted on the wall in the serving area	
Are there enough extinguishers sited throughout the premises at appropriate locations?	YES
Are the right types of extinguishers located close to the fire hazards and can users get to	YES
them without exposing themselves to risk?	
Are the extinguishers visible?	YES
Have you taken steps to prevent the misuse of extinguishers? <i>Wall-mounted</i>	YES
c) Escape Routes	
Do you regularly check equipment provided to help maintain the escape routes?	YES
Do you carry out daily checks to ensure that there is clear access for fire engines?	N/A
Can all the occupants escape to a place of total safety in a reasonable time	YES
